PLIS

Sunón

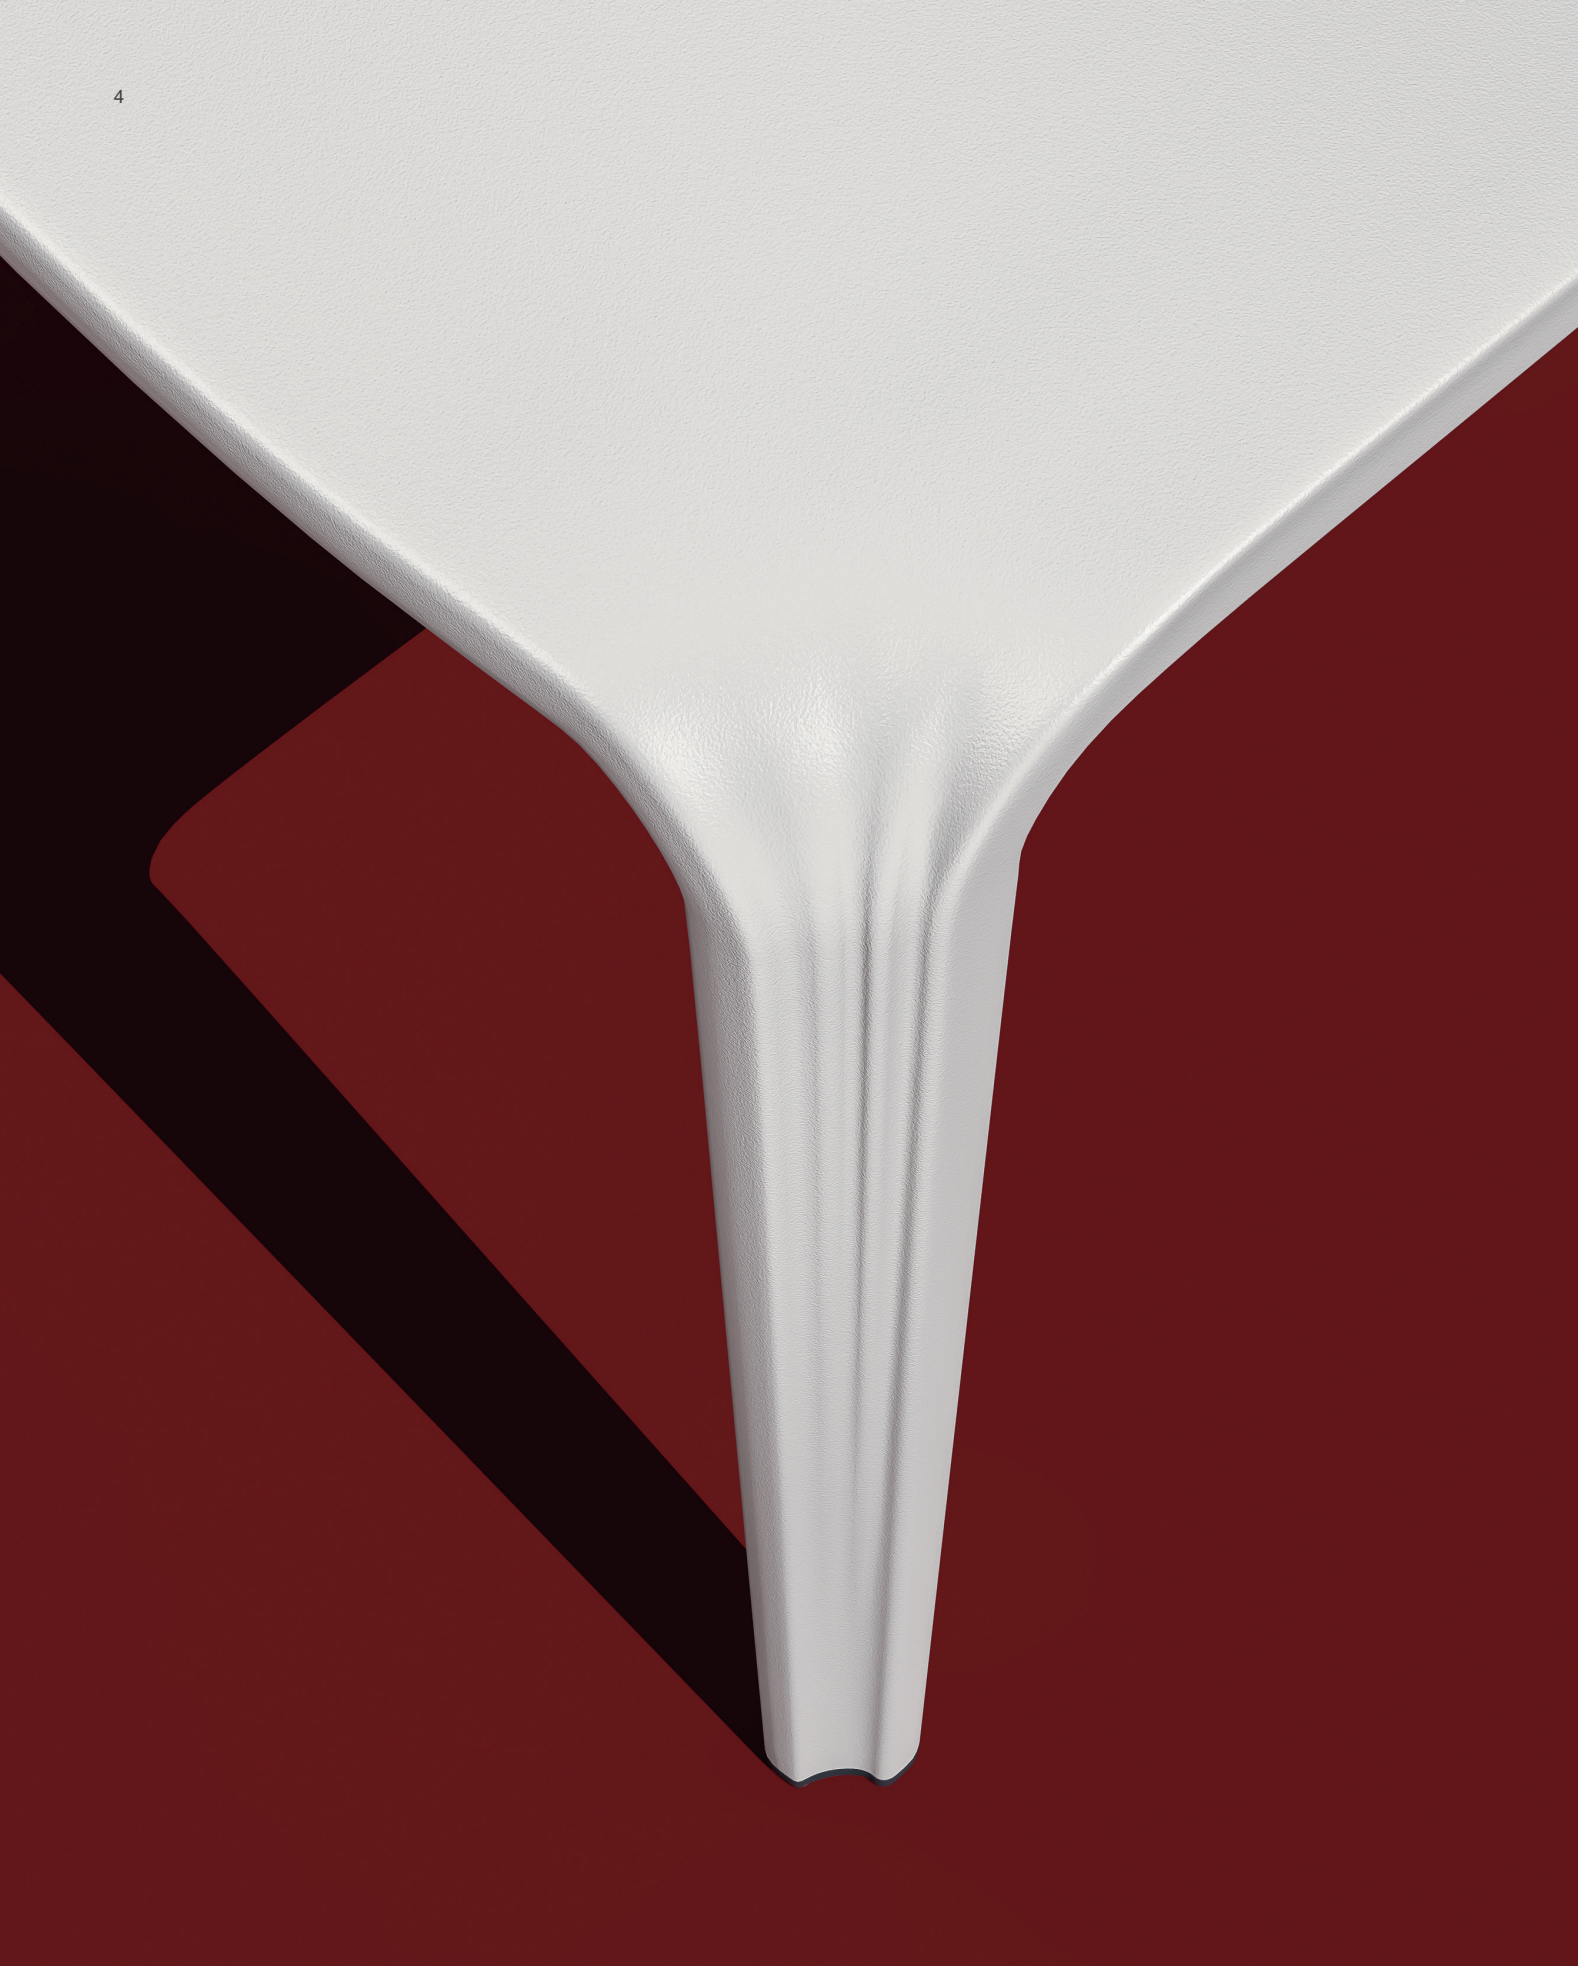

"Plis" Sit with Artistic Smoothness

Silk has unparalleled touch, luster and air-permeability, and is widely used as a high-end fabric in fashion design. Magic happens when these silky features were introduced to chair design. Presented by Italian design studio Favaretto/partners, Plis Chairs, with its artistic shape inspired by plisse silk, stretch out in a light and graceful form to create an artistic atmosphere for offices, dining spaces, coffee bars, and outdoor spaces.

With 8 colors from nature, Plis chairs express tinct delicacy, a treat to your eyes.

Silky Lustre, Flowing Plisse Delicacy

Vivid, smooth, and delicate, the silky plisse design goes all through the backrest, seat, and feet. One-piece made by using a 1,200 ton moulding machine. Automobile-grade PP+GF material further endows the chair with car surface quality. The backrest looks like ruffled silk caught in the wind, creating a dynamic flow that is definitely a highlight to the space. The chair base flowing down from four corners seamlessly forms the chair feet.

Appealing Outdoor Supporter

Young employees favor outdoor working experience than working in conventional indoor space. Material of Plis chairs has excellent stability even being used in outdoor environment, refreshing you with close-to-nature and leisure working hours.

A grand artistic quintessence is about to be staged.
The winding and undulating ceiling streamlines set off the elegant and gorgeous stage art and reflected thousands of Plis chairs in the distance.

If space constructs the form of art, then color plucks the melody of art. Sitting in Plis chairs, the pure tone of silk responds to the climax of the drama and affects the emotional ups and downs of the audience.

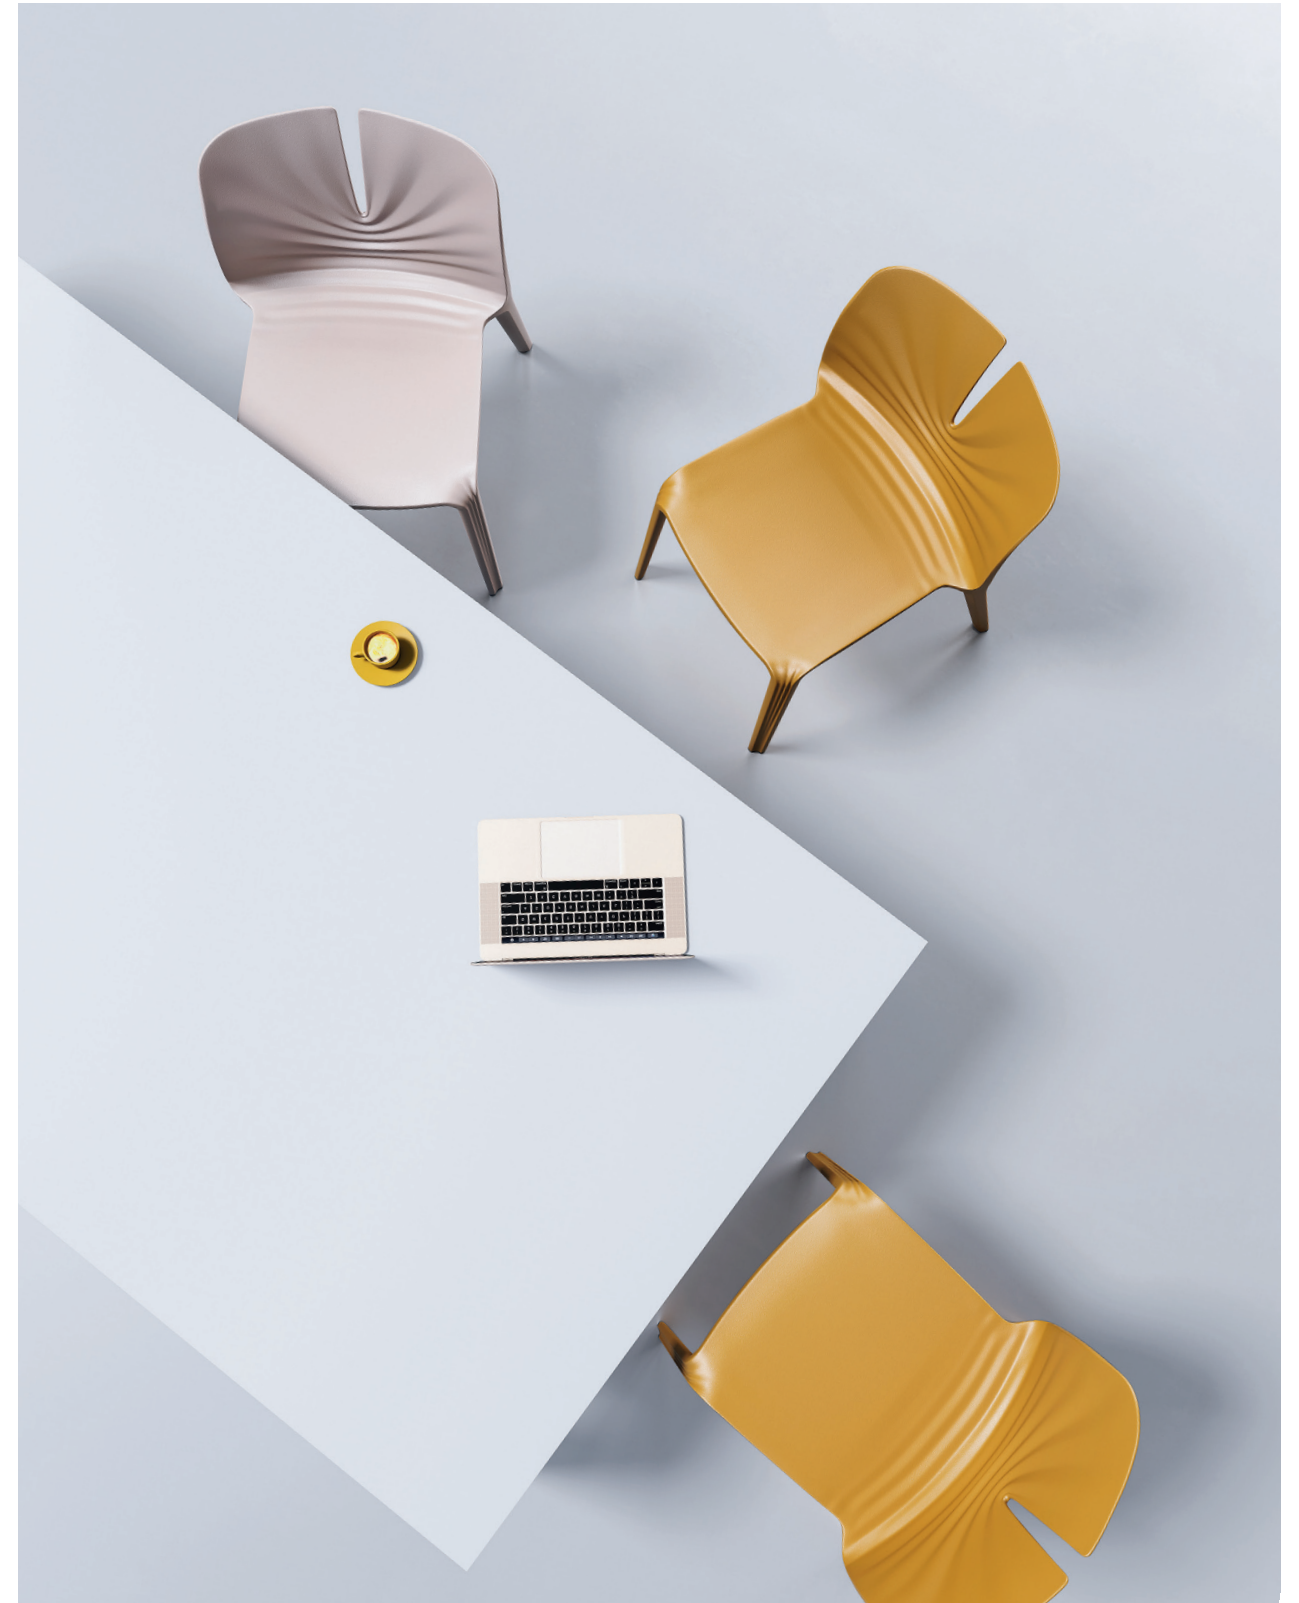

Blooming light and color

Proper Elasticity for Comfortable Sitting

The flexible material can bounce back slightly. When changing posture, it can cater to the relaxation of the muscles when the back is tilted, and it can be comfortable to start a meeting at all times.

Sweet Dining with Plis

Plis makes your dining space more joyous and colorful. Plis chairs use high density material and are designed with more outward back feet and seat with ergonomic curvature, providing comfort and strong support even when your body center of gravity is backward with a relaxing lying posture.

Artistic Flow in the Dining Space

Weight of one Plis chair is 4.1kg (\approx 2 Macbook) and easy to move with one hand. Dining spaces can also be rhythmic and stylish with Plis chairs presenting as delightful as artworks. Matching with coffee tables, friends can gather here for a noon refill leisure talking or a happy party.
